WE SUPPLY & MAINTAIN OFFICE PLANTS

As interior plantscapers, we specialize in supplying and maintaining office plants to enhance the ambiance and air quality of indoor spaces. Our expertise lies in carefully selecting and arranging a variety of indoor plants to complement the aesthetic of any workplace while improving the well-being of its occupants.

OUR STORY

INSPIRING URBAN GARDENS

Originally launched as an online platform offering indoor potted plants accompanied by comprehensive guidance and hazard information, our venture has evolved over time to encompass a range of services. These now include supplying and maintaining office plants, providing landscape solutions, and offering personalized plant consultations for both individuals and corporate entities.

OUR SERVICES

OFFICE PLANTS SUPPLY & MAINTENANCE

Our comprehensive service includes plant styling to enhance your office aesthetic, regular plant swapping, fertilizing, meticulous trimming, and thorough watering to ensure proper hydration. What sets us apart is our commitment to consistent care. With our weekly maintenance visits conducted by our dedicated team of local Malaysian technicians, you can rest assured that your plants will always receive the attention they deserve.

RETAIL SALE OF INDOOR PLANTS

Our intuitive online platform allows customers to browse our diverse selection of plants and effortlessly place orders from the comfort of their own home. Customers love purchasing online and getting it delivered either as a gift or to beautify their indoor space. Say goodbye to the hassle of visiting physical stores and hello to the ease and simplicity of shopping for plants online with daun.com.my

ARTIFICIAL PLANTS SUPPLY & ARRANGEMENT

We understand that not every space is conducive to live plants, which is why we offer a curated selection of high-quality artificial plants to suit various design preferences. Our expert team handles everything from sourcing to installation, ensuring a seamless integration that enhances your office environment with lifelike greenery.

REALITY VS PLANNED

OUR INSTALLATION

From the arrangement of plants to the overall aesthetic, our installation closely mirrors the artist's impression, demonstrating our ability to transform concepts into reality with unparalleled precision.

Witness the seamless realization of the designer's vision in our finished installation. With meticulous attention to detail, we've brought the designer's concepts to life, creating a space that mirrors the initial vision.

ARTIST'S IMPRESSION

LIVE PLANT OR FAUX PLANT

ARTIFICIAL

REAL PLANT

MODERN OFFICE SPACE

We tailor our recommendations to suit the environment, strategically placing live plants near bright windows, while utilizing artificial plants to brighten up dim corners. With a keen eye for detail, we meticulously select artificial plants that closely mimic their living counterparts, ensuring a seamless blend of beauty and convenience in your space.

VALUE-ADDED SERVICE

BY EMPLOYING A RATING TOOL PROVIDED BY THE GREEN BUILDING COUNCIL AUSTRALIA, WE CAN DETERMINE THE IDEAL QUANTITY OF PLANTS ACCORDING TO THE GIVEN AREA.

Indoor plants play a crucial role in improving air quality by absorbing carbon dioxide and releasing oxygen, as well as removing harmful toxins like formaldehyde and benzene through phytoremediation. They also help regulate humidity levels, creating a healthier indoor climate. By utilizing the rating tool, we can provide the optimum number of plants needed per square footage to achieve the maximum potential of employee wellness such as reducing stress, enhancing mood, and increasing productivity.

WHY CHOOSE US?

LONG-TERM MINDSET

We understand that successful plant maintenance requires more than just short-term solutions. Our commitment goes beyond mere care for the plants; we also recognize the importance of preserving the reputation of our clients.

PREVENTIVE MAINTENANCE

Our commitment to preventive maintenance goes beyond simply replacing dying plants; it reflects our dedication to providing exceptional service and maintaining the highest standards of quality.

BEYOND POTTED PLANT

At daun.com.my, our commitment extends beyond providing indoor office plants. As part of our Corporate Social Responsibility (CSR) efforts, we have collaborated with a local NGO and planted over 1,000 native trees in various locations throughout Perak.

One of the key species we have planted is the Balau Sengkawang Air, scientifically known as *Shorea Sumatrana*. This indigenous rainforest tree is classified as 'Critically Endangered' by the International Union for Conservation of Nature (IUCN) Red List of Threatened Species.

We selected Balau Sengkawang Air for its exceptional ability to control erosion, particularly in the area of Sungai Dipang, Kampar, Perak. By choosing to plant this species, we are not only helping to restore and preserve the rainforest but also contributing to the protection of our local environment.
